

Vietnam Indexes

Monthly Performance Report

The following report highlights the performance of indexes calculated by IFRC and other indexes providers.

The 100 most representative indexes are selected.

IFRC indexes are classified into 4 groups:

IFRC VNX indexes(50 primary indexes)

IFRC VNX indexes family comprises of 400 representative indices, including Benchmark, Size, Sectors, Blue Chips, Strategy and Theme indexes. Companies are selected based on capitalisation and liquidity.

IFRC Lab indexes (18 primary indexes)

Indexes Lab is a special research section of IFRC Index. Its objective is to simulate and develop new innovative and tradable indexes can be an alternative to conventional national indices.

IFRC Provincial indexes (60 primary indexes)

At the national level, Vietnam is trying to improve its competitiveness and international integration. Within the scope of local, regional leaders (province, city) were also eager to reform and develop policies and strategies for local economic development.

The Vietnam geographical economic indexes are designed and calculated based on the data of companies listed on stock exchanges, has its head office located in that geographic area. The Vietnam Geographical Economic Indexes series are including:

- The Provincial Indexes (actually 25 biggest provinces and cities, only provinces having at least 5 listed companies are calculated)
- The Regional Indexes (6 regions).

IFRC Research (33 primary indexes)

Unlike the VNX family, IFRC RESEARCH indexes (Benchmark, Size and Sector) cover all securities listed on both Ho Chi Minh and Hanoi stock exchange and are calculated from 2002 for research purpose.

Each primary index is calculated in the price and total return version; and availables in different currencies (VND, USD, EUR, JPY). In total, Intelligent Financial Research and Consulting (IFRC) calculates 1,288 Vietnamese indexes daily.

IFRC & Index

- Our experienced professional team, trained and supervised by Mr. Huu Minh MAI with 15 experience years
 working for New York Stock Exchange Euronext in Index department, expect to enrich continuously the index
 family by exploiting different social/economic trends while working in collaboration with Vietnamese and global
 partners.
- First index provider of full over 400 VNX indexes market for the whole Viet Nam market.
- Provide full and transparent information on indicators (calculation method and data ofcompanies in the index) to help monitoring and analyzing the situation of investors.
- Ability to create indexes that meet the standards of international investment (UCITS III).
- Relations in the extensive expertise, international financial institutions that use and commercialize indices (NYSE New York Stock Exchange, Lyxor, Société Générale, Calyon, BNP Parisbas, Deutsch Bank...).

IFRC & Research

Index activity which requires an important data resource, also creates a rich database in return. Our ambition is to exploit this available database and our know-how to contribute for research activity.

Women CEO Project (www.globalwomenceo.com)

This project is the first step of a larger project on the relationship between corporate performance and
governance which is covered both academic and financial approaches. Other topics will be the presence of
women on boards, capital held by thestate, capital held by foreign investors, or family businesses. This project
is carried out in the different geographical areas as Vietnam, Southeast Asian and Asian Nations, Eurozone and
European Markets and all over the world.

Vietnam Virtual Derivatives Market (www.vnvdm.com)

 An online trading platform project which simulates a real trading environment and allows participants a riskfree opportunity to learn and trade derivatives on equities, bonds, or commodities, as well as test their trading knowledge and market savvy.

Vietnam Economics & Financial Research Center (www.vnefrc.com)

• We are willing to support and foster empirical researches in Vietnam by implementation of Vietnam Financial Database, an academic cooperative project that centralizes in a single point of access to different sources and types of data anddocumentation useful for research in Finance.
